Sounds, logos and exchanges

Logos

The City Rings will soon have its own logo and you can even choose it!

Students from our six countries have created great illustrations so it is now time to choose the one that best represents our new project.

Sounds - Jingles

As this project is about sounds, it seemed that a jingle would also be a great way to illustrate it.

That is the reason why students have also created jingles and once again, you can now choose the one that you think is the best!

Sounds - Portraits

What are the sounds that could illustrate your personality, hobbies and habits? An owl hooting at night? Food in a frying pan? Or waves, maybe?

Before meeting all the students who are taking part in our new project, you can listen to the sounds they recorded in order to get to know them.

Happy New Year!

The City Rings online

To see the logos and listen to the sounds, you can now visit our new Facebook pages: Erasmus Sounds, The City Rings - Logo and The City Rings - Sounds.

Some of the logos created by students

In a word

SHRIEK: (n) a loud, high-pitched cry or sound. // (v) to utter a sharp shrill sound / to cry out in a high-pitched voice.

The birds were shrieking in the trees.

She shrieked when she saw a mouse.

Sound art

Ali Lacey is an eccentric sound design artist, and this short portrait allows us a closer look into the world of sound design.

To know more about him, you can watch the following video:
<https://www.youtube.com/watch?v=iCxga7i3JzQ>

Websites

Sound Bank

You can listen to and download thousands of sounds online. Here are just a couple of examples of websites that will enable you to find almost everything you need and it is all free!

bigsoundbank.com
eng.universal-soundbank.com

White sound

Did you know sounds had colours? To find out what white noise, pink noise or brown noise are, visit the following website:

<http://mynoise.net/NoiseMachines/whiteNoiseGenerator.php>

This website will enable you to generate sounds and change their frequencies to create a whole new environment.

A multinational meeting in Waregem

Editing sounds

Exchanges have already been organized by some of our schools.

From October 24th to October 31st students from Vasa - and also from Dumfries (in Scotland) and Pamplona (in the Basque Country) - spent a week in Waregem and as usual, they did quite a lot things!

They presented and talked about their schools, did several activities related to the

theme of sounds and noises and visited Bruges and Brussels.

There is nothing like friends... and waffles!

Things to do before going to Vasa

Just a quick reminder! The students from our six countries must record sounds in their hometowns. The recording should last about one minute.

These sounds will be played in Finland and then the students will present their countries. Each presentation should not be too long and should last 5 or 6 minutes.
